

# Pupil premium strategy statement – Chollerton First School

This statement details our school's use of pupil premium (and recovery premium) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and outcomes for disadvantaged pupils last academic year.

## School overview

Detail	Data
Number of pupils in school	44
Proportion (%) of pupil premium eligible pupils	0.4%
Academic year/years that our current pupil premium strategy plan covers ( <b>3 year plans are recommended</b> )	2023 - 2026
Date this statement was published	Autumn 2023
Date on which it will be reviewed	September 2024
Statement authorised by	<i>H. Davey</i> , Headteacher
Pupil premium lead	<i>G. Glenwright</i> , SENCo
Governor / Trustee lead	<i>U. Feeley</i> , lead for disadvantaged pupils

## Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£335.00
Recovery premium funding allocation this academic year	£0
Pupil premium (and recovery premium) funding carried forward from previous years	n/a
<b>Total budget for this academic year</b>	£335.00

## Part A: Pupil premium strategy plan

### Statement of intent

Our intention is that all pupils, irrespective of their background or the challenges they face, make good progress and achieve high attainment across all subject areas. The focus of our pupil premium strategy is to support disadvantaged pupils to achieve that goal, including progress for those who are already high attainers.

We will consider the challenges faced by vulnerable pupils, such as those who have a social worker and young carers. The activity we have outlined in this statement is also intended to support their needs, regardless of whether they are disadvantaged or not.

High-quality teaching is at the heart of our approach, with a focus on areas in which disadvantaged pupils require the most support. This is proven to have the greatest impact on closing the disadvantage attainment gap and at the same time will benefit the non-disadvantaged pupils in our school. Implicit in the intended outcomes detailed below, is the intention that non-disadvantaged pupils' attainment will be sustained and improved alongside progress for their disadvantaged peers.

Our approach will be responsive to common challenges and individual needs, rooted in robust diagnostic assessment, not assumptions about the impact of disadvantage. The approaches we have adopted complement each other to help pupils excel. To ensure they are effective we will:

- ensure disadvantaged pupils are challenged in the work that they're set
- act early to intervene at the point need is identified
- adopt a whole school approach in which all staff take responsibility for disadvantaged pupils' outcomes and raise expectations of what they can achieve

### Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Assessments, observations, and discussions with pupils indicate underdeveloped oral language skills and vocabulary gaps among many disadvantaged pupils. These are evident from Reception through to KS2 and in general, are more prevalent among our disadvantaged pupils than their peers.

2	Assessments, observations, and discussions with pupils suggest disadvantaged pupils generally have greater difficulties with phonics than their peers. This negatively impacts their development as readers.
3	Internal and external assessments indicate that maths attainment among disadvantaged pupils is significantly below that of non-disadvantaged pupils.
4	Our assessments, observations and discussions with pupils and families indicate that the education and wellbeing of many of our disadvantaged pupils continues to be affected by the impact of the partial school closures during the COVID-19 pandemic, and to a greater extent than for other pupils. These findings are supported by national studies.  This has resulted in significant knowledge gaps leading to pupils falling further behind age-related expectations, especially in writing and maths.
5	Our assessments (including wellbeing survey), observations and discussions with pupils and families have identified social and emotional issues for many pupils, notably due to bullying, and a lack of enrichment opportunities. These challenges particularly affect disadvantaged pupils, including their attainment.

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Improved oral language skills and vocabulary among disadvantaged pupils.	Assessments and observations indicate significantly improved oral language among disadvantaged pupils. This is evident when triangulated with other sources of evidence, including engagement in lessons, book scrutiny and ongoing formative assessment.
Improved reading attainment among disadvantaged pupils.	KS2 reading outcomes in 2024/25 show that 80% of disadvantaged pupils met the expected standard.
Improved maths attainment for disadvantaged pupils at the end of KS2.	KS2 maths outcomes in 2024/25 show that 80% of disadvantaged pupils met the expected standard.
To achieve and sustain improved wellbeing for all pupils in our school, particularly our disadvantaged pupils.	Sustained high levels of wellbeing by 2024/25 demonstrated by: <ul style="list-style-type: none"> <li>• qualitative data from student voice, student and parent surveys and teacher observations</li> <li>• a significant reduction in bullying</li> </ul>

	<ul style="list-style-type: none"> <li>a significant increase in participation in enrichment activities, particularly among disadvantaged pupils</li> </ul>
To achieve and sustain improved attendance for all pupils, particularly our disadvantaged pupils.	<p>Sustained high attendance by 2024/25 demonstrated by:</p> <ul style="list-style-type: none"> <li>the overall unauthorised absence rate for all pupils being no more than 10%, and the attendance gap between disadvantaged pupils and their non-disadvantaged peers being reduced.</li> <li>the percentage of all pupils who are persistently absent being below 1%</li> </ul>

## Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium) funding **this academic year** to address the challenges listed above.

## Teaching (for example, CPD, recruitment and retention)

Activity	Evidence that supports this approach	Challenge number(s) addressed
<p>Purchase of standardised diagnostic assessments.</p> <p>Training for staff to ensure assessments are interpreted and administered correctly.</p>	<p>Standardised tests can provide reliable insights into the specific strengths and weaknesses of each pupil to help ensure they receive the correct additional support through interventions or teacher instruction:</p> <p>Touch-type Read and Spell (TTRS) Salford Sentence Reading and Comprehension Test</p>	1, 2, 3, 4
Embedding dialogic activities across the school curriculum. These can support pupils to articulate key ideas, consolidate understanding and extend vocabulary.	There is a strong evidence base that suggests oral language interventions, including dialogic activities such as high-quality classroom discussion, are inexpensive to implement with high impacts on reading	1
Purchase of a <a href="#">DfE validated Systematic Synthetic Phonics programme</a> to secure stronger phonics teaching for all pupils.	Phonics approaches have a strong evidence base that indicates a positive impact on the accuracy of word reading (though not necessarily comprehension), particularly for disadvantaged pupils.	2
Enhancement of our maths teaching and curriculum	The DfE non-statutory guidance has been produced in conjunction with the	3

<p>planning in line with DfE and EEF guidance.</p> <p>We will fund teacher release time to embed key elements of guidance in school and to access Maths Hub resources and CPD (including Teaching for Mastery training).</p>	<p>National Centre for Excellence in the Teaching of Mathematics, drawing on evidence-based approaches.</p>	
<p>Improve the quality of social and emotional (SEL) learning.</p> <p>SEL approaches will be embedded into routine educational practices and supported by professional development and training for staff.</p>	<p>There is extensive evidence associating childhood social and emotional skills with improved outcomes at school and in later life.</p>	5

### Targeted academic support

Activity	Evidence that supports this approach	Challenge number(s) addressed
<p>Purchase of a program to improve listening, narrative and vocabulary skills for disadvantaged pupils who have relatively low spoken language skills.</p>	<p>Oral language interventions can have a positive impact on pupils' language skills. Approaches that focus on speaking, listening and a combination of the two show positive impacts on attainment.</p>	1, 4
<p>Additional phonics sessions targeted at disadvantaged pupils who require further phonics support.</p>	<p>Phonics approaches have a strong evidence base indicating a positive impact on pupils, particularly from disadvantaged backgrounds.</p>	2

### Wider strategies (for example, related to attendance, behaviour, wellbeing)

Activity	Evidence that supports this approach	Challenge number(s) addressed
----------	--------------------------------------	-------------------------------

Whole staff training on behaviour management and anti-bullying approaches with the aim of developing our school ethos and improving behaviour across school.	Both targeted interventions and universal approaches can have positive overall effects.	5
Embedding principles of good practice set out in the DfE's <a href="#">Improving School Attendance</a> advice.	The DfE guidance has been informed by engagement with schools that have significantly reduced levels of absence and persistent absence.	5
Contingency fund for acute issues.	Based on our experiences and those of similar schools to ours, we have identified a need to set a small amount of funding aside to respond quickly to needs that have not yet been identified.	All

## Part B: Review of the previous academic year

### Outcomes for disadvantaged pupils

We have analysed the performance of our school's disadvantaged pupils during the 2022/23 academic year using key stage 1 and 2 performance data, phonics check results and our own internal assessments.

Schools are not required to publish their 2023 key stage 2 results as DfE is not publishing this data. This is because statutory assessments returned for the first time since 2019, without adaptations, after disruption caused by the pandemic. This is a transitional arrangement for one year only, and DfE plans to publish key stage 2 school performance data for 2023.

DfE has shared our school's 2022 performance data with us, to help us better understand the impact of the pandemic on our pupils and how this varies between different groups of pupils. COVID-19 had a significant impact on the education system and this disruption affected schools and pupils differently, and because of this, it is more difficult to interpret why the results are as they are using the data alone.

To help us gauge the performance of our disadvantaged pupils we compared our results to those for disadvantaged and non-disadvantaged pupils at a national and regional level (although these comparisons are to be considered with caution given the caveats stated above). We also looked at these comparisons using pre-pandemic scores for 2019, in order to assess how the performance of our disadvantaged pupils has changed during this period.

Data from tests and assessments suggest that, despite some strong individual performances, the progress and attainment of the school's disadvantaged pupils in 2022/23 was below our expectations. Our analysis suggests that the reason for this is primarily the ongoing impact of COVID-19, although we also identified that some of the approaches we used to boost outcomes for disadvantaged pupils had less impact than anticipated.

The attainment gap between our disadvantaged pupils and non-disadvantaged pupils has grown since the start of the pandemic. This is reflective of national figures and demonstrates the additional impact of COVID-19 on disadvantaged pupils.

Our observations and assessments demonstrated that pupil behaviour improved last year, but challenges in relation to wellbeing and mental health remain significantly higher than before the pandemic. The impact on disadvantaged pupils has been particularly acute.

These results mean that we are not at present on course to achieve the outcomes that we set out to achieve by 2024/25, as stated in the Intended Outcomes section above. We have reviewed our strategy plan and made changes to how we intend to use some of our budget this academic year, as set out in the Activity in This Academic Year section above. The Further Information section below provides more details about our planning, implementation, and evaluation processes.

## Externally provided programmes

Programme	Provider
Kapow	
Sing-up	

## Service pupil premium funding (optional)

How our service pupil premium allocation was spent last academic year
<p>We hired a Learning Support Assistant dedicated to the emotional wellbeing and academic achievement of service children. They help pupils create 'still photo books' and 'talking photo books' to stay connected to their deployed parent, and a memory box for if they move schools.</p> <p>We identified gaps in service children's education caused by moving between schools which we addressed with targeted support.</p>
The impact of that spending on service pupil premium eligible pupils
<p>Teachers observed improvements in wellbeing amongst service children.</p> <p>Assessments demonstrated progress in subject areas where extra support classes were provided.</p>

## Further information

### **Additional activity**

Our pupil premium strategy will be supplemented by additional activity that is not being funded by pupil premium or recovery premium. That will include:

- embedding more effective practice around feedback. demonstrates this has significant benefits for pupils, particularly disadvantaged pupils.
- utilising a [DfE grant to train a senior mental health lead](#). The training we have selected will focus on the training needs identified through the online tool: to develop our understanding of our pupils' needs, give pupils a voice in how we address wellbeing, and support more effective collaboration with parents.
- offering a wide range of high-quality extracurricular activities to boost wellbeing, behaviour, attendance, and aspiration. Activities will focus on building life skills such as confidence, resilience, and socialising. Disadvantaged pupils will be encouraged and supported to participate.

### **Planning, implementation, and evaluation**

In planning our new pupil premium strategy, we evaluated why activity undertaken in previous years had not had the degree of impact that we had expected. We also commissioned a pupil premium review to get an external perspective.

We triangulated evidence from multiple sources of data including assessments, engagement in class book scrutiny, conversations with parents, students and teachers in order to identify the challenges faced by disadvantaged pupils.

We have put a robust evaluation framework in place for the duration of our three-year approach and will adjust our plan over time to secure better outcomes for pupils.
